PENDANT SYSTEM INFORMATION

Bespoke Pendant Systems
You can order a bespoke pendant system as long as your order abides by the following constraints:

Round surface mount	20kgs (44.09 lbs)
Linear surface mount	20kgs (44.09 lbs)
Mega surface mount	52kgs (115 lbs)

Round and Linear Surface Mount
Made from laser cut steel and vacuum formed plastic, the Pendant System is a mechanically engineered complete lighting solution for suspending multiple Tom Dixon lighting configurations and conceals unsightly wiring.

Maximum quantity of pendants per ceiling surface mount: 6

Mega
The Mega ceiling surface mount is made from an aluminium plate with a raw, industrial style finish, offering up to 215 hole positions. Each style can be customised by simply drilling a hole in the desired position.

Maximum quantity of pendants per ceiling surface mount: 19

Installation
To assist with installation, the surface mounts have etched hole markings with easy to follow co-ordinates, allowing for a flexible positioning of pendants within a cluster.

Detailed plans of the configurations and co-ordinates for multiple product clusters are available to download directly from the Tom Dixon website. In addition, all of our surface mounts can be primed and painted to compliment any interior environment.

*** For higher ceilings, a spare part can be purchased allowing the fitting to be modified with a cable up to 7.5m in length. In this case, please purchase spare part LEDCCL01EU along with your fitting and shade.**

CERTIFICATION

CE	EN 60598-1 +2	Manufacturer's declaration that the product meets EU standards for health, safety, and environmental protection. Indicates conformity in: **European Union**
IECEE	IECEE CB Scheme IEC 60598-1 +2 EN 55015 EN 61547 ENIEC61000-3-2 EN 61000-3-3	International Electrotechnical Commission conformity system, for mutual acceptance of test reports and certificates dealing with the safety of electrical and electronic products. Indicates conformity in: **All member countries of CENELEC (Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom)**
NZ/AUS	**CB + Australia & New Zealand**	The product has undergone additional CB certification and testing. Indicates conformity in: **Australia & New Zealand**
CCC	**CCC** GB7000.1 +2 GB/T17743 GB17625.1	Products covered by the China Compulsory Certification scope must comply with national standards and technical regulations. Indicates conformity in: **China**
cULus	**cULus** UL 1598 UL 153 UL 8750	The product has met UL's safety requirements for both the United States of America and Canada Indicates conformity in: **US & Canada**
FC	**Federal Communications Commission** CFR, Title 47, Part15B ICES-005	Indicates that the electromagnetic radiation from the device is below the limits specified by the Federal Communications Commission Indicates conformity in: **US & Canada**
T24	**California Title 24**	The product has been conformity assessed according to the requirements set by the California Energy Commission. (JA8 & JA10) Indicates conformity in: **California**
KC	**Korean Certification**	The product has been conformity assessed according to the requirements set by the Korean Agency for Technology and Standards. (KC) Indicates conformity in: **Korea**
Japan	**CB+Japan**	The product has undergone additional CB certification and testing. Indicates conformity in: **Japan**

ELECTRICAL CLASS (NON-UL PRODUCTS ONLY)

	**Class I** (Earthed)	Protection against electric shock is provided by an (Earthing) conductor. This prevents accessible conductive parts from becoming become live in the event of a failure of the basic insulation.
	**Class II** (Double Insulated)	Double or reinforced insulation is provided as protection against electric shock. No provision for protective earthing or reliance upon installation conditions is required.
	**Class III** (SELV)	Protection against electric shock relies on supply at safety extra-low voltage (SELV). Voltages higher than those of SELV are not generated.

IP RATING

EU / CB / CCC Version	UL Version
IP20 - Solid-object proof The minimum standard of ingress protection for lighting products. Protection against solid objects only	**Dry Location** A location not normally subject to dampness
IP44 - Splash-Proof Suitable for bathroom Zone 2 and covered outdoor areas. Not recommended to leave outdoor unattended or store outdoor.	**Damp Location** Interior or Exterior location that is periodically subject to condensation or moisture
IP55 – Jet-proof Suitable for bathroom Zone 2 and uncovered outdoor areas	**Wet Location** A location in which water or other liquid can drip, splash or flow on or against the product

Tom Dixon lighting is not suitable for extreme conditions such as particularly dusty environments, high salinity, acid rain or continuous direct sunlight.

Bell Fluoro: The rich, vivid colour of the fluoro finish is produced by special fluorescent pigments used in the paint. Fluorescent pigments can be sensitive to UV radiation, heat, and other environmental factors.

DIMMER COMPATIBILITY

Type	Description	Compatible with Tom Dixon Light
Leading Edge Forward Phase, TRIAC	AC Mains voltage. Original and most common household dimming method. Commonly used on incandescent lighting	Yes
Trailing Edge Reverse Phase, ELV	AC Mains voltage. Electronic dimming designed for LED lighting	Yes
0-10v	Uses a signal of 0-10V to control dimming function. Common in commercial applications.	No
DALI	Digital addressable lighting interface. Uses an additional pair of wires to digitally control each light fitting independently.	No

To make Tom Dixon Lights compatible with other dimming systems, the product may be modified, it is recommended customers consult with a Lighting Engineer. Please note any changes made to your Tom Dixon light will void any warranties.

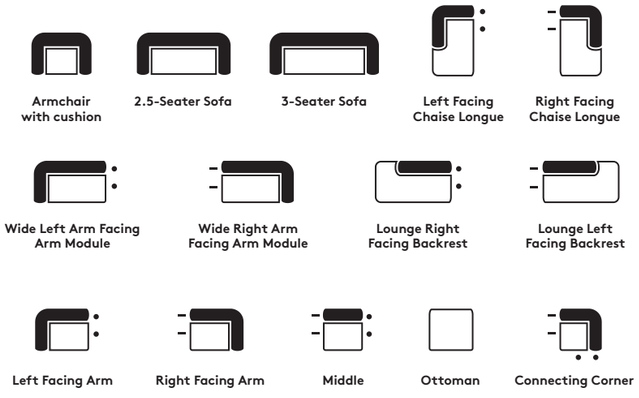
PLUMP SOFA

Tom says: *'The reference point is the Chesterfield, a traditional English typology that has remained a British classic for centuries. We aimed to create something reminiscent of that in terms of proportions but with a distinct departure in appearance.'*

PLUMP is well-rounded and plush, with an implied squidginess that enhances comfort. It offers flexible configurations and is easy to move. The minimalistic design allows PLUMP to blend seamlessly with any interior style.



Best Selling Sofas & Configurations

AUTUMN

Autumn is an upholstery textile woven from 100% recycled polyester. It comes in a nuanced colour palette designed by Teruhiro Yanagihara, inspired by the transient nature of the ‘ageing season’.

The textile is constructed with a recycled polyester yarn made from used plastic bottles and woven in a layered double-beam weave. This composition gives Autumn a soft, natural hand and allows it to be continuously recycled with no degradation in quality.

A dark, unicoloured background is used across Autumn’s colour palette, and offers a rich contrast to the melange top layer, which features yarns created from a mix of two fibre-dyed colours. The scale comprises a selection of neutrals including a white melange, papery beige notes and greys, and characterful reds, blues, and oranges, alongside a lively black shade.

Teruhiro Yanagihara: “I chose a soft gradation of colours to represent the richness of ageing. I felt that although the textile is made of 100% recycled polyester, it expresses the sensitivity and transience in nature and a sense of natural fibres.”

Autumn is suitable for a wide range of commercial and residential applications.

ALPINE

BOUCLE

This selection of boucle fabrics was chosen for its soft, voluminous and elegant characteristics. Boucle combines polyester and polyacrylic yarns, which have been twisted and spun to create a beautiful upholstery fabric. Made first by creating loose loops around a core yarn, bouclé yarns are a popular choice in furniture fabrics, as they are suitable for loose covers and easily upholstered on tight fitted models. The texture of boucle is formed by the varying size of loops, from large and loose curls to small and tight circlets.

HALLINGDAL 65

NANNA DITZEL

Kvadrat's first textile Hallingdal has become the archetype of woollen textiles. The very durable upholstery fabric was originally designed in 1965 by Nanna Ditzel who is known as one of Denmark's great designers. Hallingdal 65 is made of wool and viscose: the wool provides excellent durability and flexibility, whilst the viscose adds brilliance and depth to the colour. Both materials are dyed before they are spun, which highlights the rich texture of the fabric. The versatile palette includes neutral and strong, primary colours. Some colourways are unicoloured, others are constructed from 2 different unicoloured yarns, and the rest are created using unicoloured yarns in combination with melange yarns.Hallingdalhas been continually produced by Kvadrat since the company was established and it remains one of the best selling textiles of the Kvadrat collection.

For more information visit Kvadrat Hallingdal 65

Type	Upholstery
Composition	70% new wool, 30% viscose
Yarn Type	Woolen
Binding	Plain
Width	Approx. 130 cm (Approx. 51")
Weight	795 g/m² (25.64 oz/sq ft)
Repeat	None
Cleaning	Vacuum clean frequently, ideally every week. Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary. Extraction cleaning might dissolve water-based glue. Pay attention to temperature and amount of cleaning fluid.

HERO 2

PATRICIA URQUIOLA

Unicoloured Hero 2 is a full-bodied upholstery textile designed by Patricia Urquiola. A new iteration of Hero, it is characterised by its soft texture and exceptional colour richness, and comes in a sporty new palette comprising over 30 nuances.

Hero 2 exemplifies Kvadrat's commitment to Conscious Design Principles. It is primarily woven from wool, a renewable resource, and is re-engineered to contain recycled nylon instead of virgin nylon. Consequently, it is suitable for recycling.

The expansive new palette for Hero 2 showcases Patricia Urquiola's singular approach to colour design. It comprises a dynamic scale of subtle yet vibrant hues inspired by nature that explore tonal associations, including a series of non-traditional interpretations of red.

DIVINA MELANGE 3

FINN SKÖDT

Divina Melange 3 is a vibrant piece-dyed woollen upholstery textile reminiscent of felt. Cheerfully simple, it comes in a fresh, versatile palette by artist and designer Finn Sködt.

Compact, comfortable and extremely smooth, Divina Melange 3 expresses colours and the shape of furniture particularly well. It is constructed by weaving the yarn in a simple binding after which it is subjected to pressure and high temperatures. This milling process, which is often associated with fine tailoring, transforms the material from coarse to a soft and uniform, felt-like surface.

Produced by piece-dyeing a dark or light grey melange, the textile's colour palette perfectly reflects Finn Sködt's pure aesthetic. The new colour scale combines signature nuances, such as hot pink, forest green and Finn Sködt's favourite ultramarine, together with chalky notes and neutral shades. These are meticulously picked from the designer's extensive colour library of hand-painted samples, documenting the colours that he has used in his paintings for decades.

Unlike previous editions of Divina Melange, the new colourways go beyond pairs of light and dark versions of the same colour. Instead, they combine pairs of complimentary yet different tones to deliver a greater degree of diversity.

Divina Melange 3 is versatile and hard-wearing. Consequently, it is suitable for both public and private spaces alike.

For more information visit Kvadrat Divina Melange 3

MELANGE NAP (CATEGORY 3)

*Collection colours have a 6–8 week lead time.

kvadrat

MELANGE NAP

AKIRA MINAGAWA

Melange Nap is a woollen upholstery textile characterised by exceptional depth of colour and surprising details. Designed by Akira Minagawa, it offers a distinctively unique melange expression.

Extremely soft yet durable, Melange Nap appears to be brushed. It is constructed with a unicoloured and a melange yarn, which creates a graphic pattern of tiny dots that play across its surface.

The volume of details that emerges from the surface of Melange Nap depends on the contrast between the yarns. Some of the darker colourways almost appear unicoloured whereas others have an intriguing multi-coloured look.

Akira Minagawa: 'Melange Nap transforms an interior into 'scenery' within its space. The colour compositions are inspired by six elements from the natural world: Forest, Sun, Ocean, Minerals, Earth, and Dune. Each expression of the textile harmonises with its surroundings in an individual way, while creating a sense of the peace that comes from nature.'

Suitable for public and private spaces, Melange Nap comes in a number of colours derived from upholstery textile Forest Nap, also designed by Akira Minagawa. Consequently, they combine particularly well.

For more information visit Kvadrat Melange Nap

LEATHER

Slightly corrected semi-aniline leather is a lightly sanded leather that is supple and soft, with an elegant look. The leather may be lightly printed or retain its natural grain, which is slightly stronger than with full-grain semi-aniline leather. Sitting comfort remains high, as the ability of the leather to breathe is partially preserved. This type of leather is a good choice for both homes and the contract market. A warm, soft and inviting leather, with high durability and a flexible structure.

For more information visit **Camo Leather**

Composition	Leather
Average size	4.2 m2
Thickness	0.9-1.1 mm
Raw materials	Semi Aniline, Full leather, from Australian, New Zealand or European raw materials. Tanning: Chrome
Fastness to rubbing	Dry, 500 rubs - ≥4 ISO 11640 Wet, 150 rubs - ≥4 ISO 11640 Sweat, 80 rubs - ≥4 ISO 11640
Lightfastness	5 ISO 105-B02
Tear strength	Tear strength ≥20 N
Flex resistance	Flex resistance 30,000
Flame resistance	BS 5852 part 1 EN1021-1/2 US Cal. Bull. 117-2013

ELLE

SAHCO

A curled bouclé fabric, Elle drapes and curves around furniture like an elegant designer coat. The spun bouclé yarn created by blending wool, viscose and acrylic gives the surface a soft tactility. During the subsequent dying the yarns take the colour differently, creating captivating shifts within the same tones. This effect and a slight sheen from the acrylic blend bring life to the voluminous textured bouclé surface. Elegant neutrals range from oyster, coffee, pearl white, light ivory and caramel to cactus green, concrete grey, nutmeg, mud brown and ink. Taking cues from fashion, brighter contrast colours are sunset orange, rust, plum and aqua.

For more information visit **Kvadrat Elle**

Type	Upholstery
Composition	20% polyacrylic, 15% polyamide, 20% viscose, 20% wool, 25% cotton
Yarn Type	Staple / Filament
Binding	Jacquard
Width	Approx. 140 cm (Approx. 55")
Weight	900 g/m² (29.03 oz/sq ft)
Repeat	None
Cleaning	Vacuum clean frequently, ideally every week. Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary. Extraction cleaning might dissolve water based glue. Pay attention to temperature and amount of cleaning fluid.

VIDAR 4

FAMILY ARONSEN & RAF SIMONS

Originally designed by Fanny Aronsen, Vidar has been re-coloured by Raf Simons, with shades ranging from moss green, dark aubergine, ruby red and midnight blue through to brick and earth tones, and easy neutrals.

The gentle satin surface finish of the weave contrasts with the deep shadowy tones in the depths, giving a multifaceted richness to the intense colours in the range.

Tightly woven, without the irregularities of the other bouclé fabrics within this collection, Vidar has an inviting texture, which variously recalls blackberries, orange peel or the comforting close-knit texture of a favourite sweater.

For more information visit Kvadrat Vidar 4

Type	Upholstery
Composition	94% wool, worsted, 6% nylon

VIDAR DUO

RAF SIMONS

Vidar Duo is a duotone evolution of Vidar, originally designed by Fanny Aronsen and subsequently recoloured by Raf Simons. The mélange effect of the colour pairings creates a softer more diffuse expression, highlighted by Simons' masterful edit of the palette into 11 duotones.

Woven from bouclé yarns with a regular loop size, Vidar Duo has a deep, tight, large-grained texture. The dual colouration emphasises the gentle satin surface finish of the textile, constructed by combining a crepe weave with an underlying jacquard. Vidar Duo is yarn-dyed, with a weft composed of two colours of similar saturation, though different in hue. The warp is either matched to one of the weft colours, is tone in-tone, or is in complete contrast.

GENTLE 2

FEBRIK

Gentle 2 is the only knitted stretch velvet upholstery textile on the market. Designed by Febrik, it comes in a refreshed colour scale and combines an inviting presence with a sumptuous, soft pile.

The textile is constructed by knitting loops through a base layer and subsequently shearing the surface. Thanks to a subtly striated surface which derives from the naturally irregular thicknesses of the woollen yarns, Gentle 2 features a rich surface with an elegant shine.

Gentle 2 has a particularly opulent feel as it is laminated onto a 2mm thick base foam. This ensures the textile stands out with a voluminous expression that sets it apart from traditional woven velvets.

The updated colour palette neatly compliments Gentle 2's soft, comfortable expression. It comprises light pastels and clear bright hues, such as lavender, cream, tangerine and electric blue.

Suitable for public and private spaces, Gentle 2 offers excellent stretchability due to its knitted construction. Consequently, it clings to curves in a particularly elegant way and is ideal for upholstering organic shapes, as well as any other form.

For more information visit [Kvadrat Gentle 2]

Type	Knitted upholstery

CUSTOMERS OWN MATERIAL (COM) AND CUSTOMERS OWN LEATHER (COL)

In addition to our selection of fabrics, we have a list of pre-approved Fabrics (COM) and Leathers (COL) to choose from.

Please contact customerservices@tomdixon.net for a full list of pre-approved fabrics and leathers and the COM/COL ordering process.

Fabric/Leather Suitability
It is the responsibility of the Customer to ensure the selected material is suitable for the intended environment. Tom Dixon cannot take any responsibility for the performance of the material or any improper use. It is the responsibility of the Customer to ensure they follow the Care & Maintenance guidelines provided by the manufacturer. Seek further advice from the fabric supplier where required.

Guidelines for Domestic Use
Fabrics must be match resistant. It is the responsibility of the Customer to advise if the COM or COL fabric supplied is inherently match resistant or will need chemical flame retardant treatment. The upholstery composite (lay up of fabric cover, any interlines and the filling assembly) must be cigarette resistant. It is the responsibility of the Customer to advise if the COM or COL material supplied is inherently cigarette resistant or will need chemical flame retardant treatment.

Guidelines for Contract Use
The fabric cover and upholstery composite must be match resistant and cigarette resistant. In addition, the upholstery composite must be larger flame source resistant, depending upon the environment the upholstery is placed into. It is the responsibility of the Customer to advise the specific non domestic usage requirements and to advise that the COM or COL fabric supplied meets the requirements. Any other regional requirements will need to be agreed in advance of order placement. All test certificates must be sent to Tom Dixon for approval in advance of order placement and confirmation.
For lead times on colours not included in the collection fabrics, please reach out to Customer Services or your Trade Services Executive.

**The PLUMP and FAT sofas ARE NOT available to be upholstered in leather.

To comply with various country regulations on upholstery fire safety, Tom Dixon offers two types of upholstery foam: CMHR (Combustion-Modified High Resilience which contains added fire-retardant chemicals) and HR (High-Resilience without added fire-retardant chemicals). Fixed coverings (fabric & leather) must also comply with upholstery fire-safety regulations, depending on end-use setting.

End-use setting should be checked with the customer when specifying. If further clarification on our foams and fabric offer is required, please contact customerservices@tomdixon.net

The below matrix sets out the foam requirements in conjunction with our fabric collection for selected end-use settings. “Rest of World” (RoW) refers to countries outside of the UK and USA.

APPENDIX

ORDER TO DELIVERY SERVICE OFFERS

The Tom Dixon range is clearly structured into three service offers; Quick Ship, Collection and Tailor Made. Please inquire about stock availability for new products.

NEW

- Products introduced as part of the latest seasonal collection at the time the price list is issued.
- Applies across all categories, including lighting, furniture and accessories.

QUICK SHIP

- Products held in stock for rapid delivery.
- Subject to availability and temporary stock fluctuations.

MADE TO ORDER (MTO)

- Upholstered furniture manufactured following order placement.
- Typically delivered within eight weeks, subject to fabric availability, holiday schedules and factory closures.
- For lead times on non-standard fabrics or colours, please contact your Trade Services Executive.

Design Research Limited t/a Tom Dixon (the Company) agrees to sell its goods on the following terms:

1 PRICING TERMS

1.1 This price list is valid from 1st September 2026 and supersedes all previous lists.

1.2 Prices are provided for indicative purposes only, and are based on economic conditions and the best knowledge of the Company at the time of publication.

2 WARRANTIES

2.1 This Contract constitutes the entire agreement between the Company and its customers (the Customer) for the sale of Goods. The Customer acknowledges that it has not relied on any statement, promise, representation, assurance or warranty made or given by or on behalf of the Company which is not set out in the Contract.

2.2 Any samples, drawings, descriptive matter, or advertising produced by the Company and any descriptions or illustrations contained in the Company's catalogues or brochures are produced for the sole purpose of giving an approximate idea of the Goods described or depicted in them. They shall not form part of the Contract or have any contractual force.

2.3 The Customer shall be responsible for inspecting Goods upon delivery and it is a condition of the Contract that any shortage or defect in Goods at delivery is notified to the Company in writing together with photographic proof within 5 Working Days from the receipt of Goods.

2.4 A three-year limited warranty against manufacturing defects is offered on all furniture and lighting Goods (materials and construction). A one-year limited warranty against manufacturing defects is offered on all other Goods. Normal wear on fabrics and finish, as well as indirect damage to persons or articles is not covered by this warranty. Where a defect has been notified, the Customer will, if so requested by the Company, return the Goods to the Company at the Customer's expense. If the Company subsequently confirms that the returned Goods contain defects attributable to the Company, the reasonable costs of re-delivery incurred by the Customer will be refunded.

2.5 The warranties given above will not apply to defects that are due to fair wear and tear, accidental damage or failure by the Customer or any third party to adhere to the Company's instructions or written recommendations.

2.6 Any modifications made to the product by the Customer will void the warranty.

3 INSTALLATION

3.1 All the Company's lights are for indoor use only unless otherwise specified. They should be installed by a qualified electrician. Installation must be carried out in accordance and compliance with current building regulations.

3.2 Because of the variety of different ceiling types and construction the Company cannot advise on fixings. The Customer should check the type of ceiling construction they have and use appropriate fixings that are suitable for the weight of the light being installed.

3.3 Please note replacement bulbs should be in accordance with recommendations in the product instructions.

4 PRICING

4.1 Prices charged will be the current list price on the day on which the Order Confirmation is issued by the Company. The Company reserves the right to change list prices at any time and on any Goods without prior notification.

4.2 Quotations provided by the Company shall be valid for 30 days only. Any purchase orders placed before a change to the price list is published must be collected or delivered in full within 15 days of the order, failing which the order will be cancelled.

4.3 Unless otherwise stated in the Contract, prices are quoted exclusive of value added tax and sales tax, carriage and freight which will be payable in addition. The Company accepts no responsibility or liability for any taxes, duties, delivery fees or other fees which the Customer may be required to pay in relation to the Goods, and the Customer shall be solely responsible for paying any such required fees or taxes.

5 ORDERING

5.1 All Customer orders, other than for made-to-order items, are to be placed via the Tom Dixon Trade Portal (www.tomdixon.net/professionals).

5.2 Where requested, Certificates of Origin can be provided at the Customer's expense, for a fee of £100, €120, whichever is applicable.

5.3 All orders placed with the Company are picked and dispatched on an individual basis. Unless otherwise agreed between the parties, the Company shall not facilitate the consolidation of customer orders.

5.4 Orders will only be considered placed once a formal receipt of confirmation of order has been provided by the Company (Order Confirmation). Order Confirmation is final and binding. Any subsequent change or cancellation is subject to the Company's consent.

6 SHIPPING AND HANDLING CHARGES

6.1 Shipping fees are based on the order value as outlined in Table 1 and Table 2.

TABLE 1

Region	Details	Currency	Order Value	Shipping/ handling fee*
Mainland Europe	Deliveries within the European Union	Euro	Under €574.00	€55.00
Mainland Europe	Deliveries within the European Union	Euro	€575.00 - €1,149.00	€99.00
Mainland Europe	Deliveries within the European Union	Euro	Over €1,150.00	€115.00

*Standard delivery terms apply to mainland destinations only. Areas outside the standard delivery grid—including but not limited to Andorra, Canary Islands, Faroe Islands —may be subject to extended delivery timeframes, customs duties, or additional shipping surcharges.

Tom Dixon is committed to maintaining competitive and transparent shipping charges for its customers. The shipping charges applied to orders represent a contribution towards the overall cost of transportation, handling and delivery and do not necessarily reflect the full cost incurred by the Company in providing these services.

The Company continues to absorb a significant proportion of its overall logistics and transportation costs in order to minimize the cost impact to customers.

Shipping charges are established based on the freight and logistics market conditions. However, transportation costs may be affected by factors outside the Company's reasonable control, including but not limited to, fuel price fluctuations, carrier surcharges, capacity constraints, changes in customs or regulatory requirements, port congestion, geopolitical events, trade disruption, changes in duties or taxes, and significant changes in global economic or market conditions.

Where such circumstances result in a material increase in the cost of fulfilling an order, the Company reserves the right to apply or adjust shipping, freight or other applicable surcharges.

Where reasonably practicable, customers will be advised of any material additional charges prior to dispatch.

The Company will continue to seek competitive transportation solutions and absorb a proportion of logistics costs wherever commercially reasonable.

Additional Warehouse Services and Charges

Certain services carried out by our warehouse may incur additional charges. Such services include, but are not limited to:

One Box Solution;
Special labelling;
Photographs of pallets;
Power of Attorney;
Dual Use Declaration;
Non-Reusable Plastic Packaging Declaration; and
Any other bespoke or special requirements requested by the customer.

Any additional services or special requirements will be assessed and priced on a case-by-case basis. **All applicable additional costs will be confirmed to the customer upon request and, where applicable, prior to the service being carried out.**

7 DELIVERIES

7.1 The Company shall make all reasonable efforts to deliver all Goods within the period stated in the Order Confirmation, however such periods are stated for indicative purposes only. The Company shall not bear any liability for any delay in delivery, and time shall not be considered of the essence in this regard.

7.2 For stocked Goods, the Company aims to deliver within 7 Working Days within the UK, and within 10 Working Days across the EU and 10 Working Days across the United States.

7.3 All items are stocked Goods, unless otherwise indicated. For non-stocked Goods, specific lead times may be specified next to the product in this price list and the Tom Dixon Trade Portal.

7.4 The Company only delivers to commercial addresses. Each account holder may register up to three commercial addresses with the Company. For shipments to any other commercial addresses, where applicable (Drop Ship) or orders below the Minimum Order Value (MOV), an additional Drop Ship administration fee will be charged by the Company. This fee shall be £120 in the UK and €140 in the EU.

8 EX-WORKS ("EXW") AND CUSTOMER'S OWN ACCOUNT ("COA") SHIPPING, HANDLING AND ADMINISTRATIVE CHARGES

8.1 All Customers outside of Europe, and the United States must collect orders on EXW terms, as defined by the Incoterms® rules in force from time to time.

8.2 All export documentation (including commercial invoices and delivery notes) will be supplied by the Company. All carrier correspondence and collections shall be arranged exclusively by the Customer, at the Customer's risk and expense.

8.3 For orders below the EXW MOV, an EXW handling fee will be charged as set out in Table 2.

8.4 All EXW collections must take place within a defined pick-up period, or incur a daily handling fee, as outlined in Table 2.

8.5 EXW Orders not picked up within 5 Working Days from the collection date notified to the Customer from the UK or United States will be subject to a daily storage fee commencing on the 6th Working Day from the collection date as set out in Table 2. Orders not picked up within 20 days from the initial collection date will be restocked and a restocking fee charged as set out in Table 2.

8.6 The Company shall bear no responsibility or liability for any loss or damage incurred during transit by EXW carriers. Orders must be checked by the Customer upon collection.

8.7 For orders below the COA MOV, a COA handling fee will be charged as set out in Table 2.

8.8 Any inherent product shortages or manufacturing damages must be reported by the Customer to the Company within 5 Working Days of delivery (excluding EXW shipments, which must be checked upon collection as per Section 8.6) and accompanied with photographic evidence.

TABLE 2

Region	Currency	EXW Minimum Order Size	Handling fee	Pick up period (Working days)	Daily storage fee per pallet per day	Restocking fee
Ex-works DK warehouse	Euro	€2,000.00	€100.00	5	€25	25%

9 PAYMENT TERMS

9.1 30 Day Terms: If there is sufficient available credit on a Customer's account, Orders will be dispatched as soon as practicable and, unless agreed otherwise in writing, all invoices issued by the Company shall fall due 30 days from date of invoice.

9.2 Proforma Terms: Full payment of proforma invoices must be received by the Company in the form of cleared funds within 5 Working Days of receipt of the proforma invoice. Goods will be dispatched only upon receipt of payment in full from the Customer. The Company reserves the right to unreserve stock if a proforma invoice remains unpaid after 5 Working Days.

9.3 It is the sole responsibility of the Customer to verify the specification of made-to-order Goods as outlined in the Order Confirmation provided to the Customer.

9.4 If a made-to-order item meets the specification agreed to in advance on the Order Confirmation, such Goods may not be returned or exchanged under any circumstances.

9.5 Invoices that are not disputed within 20 days of invoice date are conclusively deemed accurate.

9.6 Customer shall pay the undisputed portion of the fees promptly and provide written details specifying the basis of any dispute, to the reasonable satisfaction of the Company.

9.7 For non-stock (made-to-order) items, a non-refundable 50% deposit shall be payable at point of Order for Proforma Terms, and a written confirmation of the Order is required, prior to the commencement of manufacture, unless otherwise agreed.

10 PROPERTY AND RISK

10.1 Save where otherwise agreed or specified in this Contract, the risk of loss or damage to the Goods passes to the Customer upon delivery.

10.2 Any Goods delivered to the Customer remain the property of the Company until payment in full of all amounts due to it from the Customer have been received by the Company.

10.3 Subject to clause 10.4, where Goods have been provided on credit terms, the Customer may resell or use them in the ordinary course of its business (but not otherwise) before the Company receives payment for the Goods. However, if the Customer resells the Goods before it has paid the Company for them in full:

(a) it does so as principal and not as the Company's agent; and
(b) title to the Goods shall pass from the Company to the Customer immediately before the time at which resale by the Customer occurs.

10.4 If, before the Customer has paid the Company for any Goods, an event of default occurs as listed in clause 15, then:

(a) the Customer's right to resell the Goods as set out in clause 10.3 ceases immediately: and
(b) the Company may at any time:
(i) require the Customer to deliver up all Goods in its possession which have not been resold; and
(ii) if the Customer fails to do so promptly, enter any premises of the Customer or of any third party where such Goods are stored in order to recover them.

10.5 If ten Working Days after the day on which the Company notified the Customer that the Goods were ready for delivery the Customer has not accepted delivery of them, the Company may resell or otherwise dispose of part or all of the Goods and, after deducting reasonable storage and selling costs, account to the Customer for any excess over the price of the Goods and/or charge the Customer for any shortfall below the price of the Goods, at the Company's election in its sole discretion.

11 RETURNS

11.1 The return of all Goods needs to be preauthorised by the Company.

11.2 All returns will be at the Customer's expense unless the Goods are faulty.

11.3 No returns will be accepted after 28 days from the invoice date.

11.4 Made-to-order items may not be returned unless they are faulty or not as described.

11.5 All returned Goods that are not faulty should be in their original unopened packaging and fit for resale. The Company will not refund Goods whose packaging is opened and/or which are not fit for resale in the Company's opinion.

12 SPARE PARTS

The Company may, in its sole discretion, hold a selection of spare parts for discontinued products for a limited period from the date of issued product discontinuation, but shall have no obligation to do so.

13 UNEXPECTED EVENTS

If the Company is prevented from carrying out its obligations to the Customer by a cause beyond its reasonable control, including fire, flood, storm, failures of sub-contractors or transport, industrial action, epidemic or pandemic, or acts of God, including without limitation any COVID-19 related disruption, the Company shall not be liable for any failure or delay.

14 TERRITORY AND INTERNET SALES

14.1 A Customer who wishes to market and sell the Goods digitally or online may only do so where they hold stock of the Goods to be sold, or they display the Goods in a physical, bricks-and-mortar showroom or retail space which is accessible to the public during normal working hours.

14.2 The use of the Company's trademarks and other intellectual property in marketing, digitally or otherwise, including Online Advertisements (as defined in 14.3 below), is strictly prohibited without the Company's express permission in writing, and in all cases must adhere to the Company's Online Brand Guidelines as published on the Tom Dixon Trade Portal from time to time.

14.3 The Customer shall refrain from making active sales of the Goods to purchasers situated in a country (the Restricted Territory) outside the country to which the Goods are supplied (the Territory) provided the Restricted Territory is outside the European Economic Area. If the Restricted Territory is within the European Economic Area, this restriction shall apply in those Restricted Territories within the European Economic Area which the Company has reserved to itself and/or one of its distributors, in its sole discretion. For these purposes, active sales shall be understood to mean actively approaching or soliciting purchasers, including, but not limited to, the following actions:

(a) visits;
(b) direct mail, including the sending of unsolicited emails;
(c) advertising in media, on the internet or other promotions, where such advertising or promotion is specifically targeted at purchasers outside the Territory;
(d) online advertisements addressed to purchasers outside of the Territory and other efforts to be found specifically by users outside the Territory, including the use of territory-based banners on third party websites and paying a search engine or online advertisement provider to have advertisements or higher search rankings displayed specifically to users outside the Territory (Online Advertisements); and
(e) advertising or promotional material in any form, or translations of the Customer's website into a language other than an official language of any country forming part of the Territory, that the Customer would not reasonably carry out but for the likelihood that it will reach purchasers outside the Territory.

14.4 Permitted active marketing and sales in Restricted Territories must be in the local language and currency.

14.5 The Customer shall refrain from making active sales of the Goods to online purchasers via third party websites which carry their own name and logo, including buying groups and online marketplaces, such as Amazon, eBay and Alibaba.

15 GUARANTEES AND LIABILITY

15.1 The Company will have no liability to the Customer or any third party if the Customer does not comply in all respects with the Company's instructions in relation to the product.

15.2 If the Customer immediately notifies the Company, as soon as it becomes aware of any defect in the Goods which appears within the applicable warranty period set out in clause 2.4.

15.3 Where a defect has been notified, the Customer will, if so requested by the Company, return the Goods to the Company at the Customer's expense. If the Company subsequently confirms that the returned Goods contain defects attributable to the Company, the reasonable costs of re-delivery incurred by the Customer will be refunded.

15.4 All terms, conditions and warranties implied by law, trade use or otherwise (including but not limited to any warranties as to quality or fitness for purpose) are excluded to the extent permitted by law. The Customer, by entering the Contract, acknowledges that the only warranties are those given expressly by the Company in this Contract.

15.5 Under no circumstances will the Company have any liability to the Customer for any loss or damage (whether direct, indirect or consequential and whether in contract or in tort) except as expressly stated in this Contract. This shall not relieve the Company from its legal liability for death or personal injury which is due to the negligence of the Company.

16 DEFAULT

16.1 If the Customer:
(a) commits a breach of contract, or
(b) fails to make a payment on the due date; or
(c) becomes insolvent or has a receiver appointed,

the Company shall be entitled either to suspend the supply of Goods or, at its option and in its sole discretion, to cancel this Contract and repossess any Goods for which payment has not been received in full.

16.2 The Company shall also have the rights set out above if it reasonably considers that any of the events mentioned (a), (b) or (c) above are likely to occur.

17 SEVERANCE

17.1 If any provision or part-provision of this Contract is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable.

17.2 If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this clause shall not affect the validity and enforceability of the rest of this Contract.

18 DIVISIBILITY CLAUSE

18.1 This Contract is divisible. Each delivery made hereunder shall be deemed to arise from a separate contract and may be invoiced separately. Any invoice for a delivery shall be payable in full in accordance with terms of payment provided for herein, without reference to and notwithstanding any defect of default in delivery of any other instalment. All Goods offered by the Company are supplied expressly upon these terms with no additions or modifications.

19 GENERAL

19.1 In this Contract, a Working Day shall mean a day other than a Saturday, Sunday or public holiday, on which clearing banks are open for non-automated commercial business in the City of London.

19.2 The Company has the right to sub-contract its obligations.

19.3 This Contract shall be governed by the laws of England and Wales and the laws of the United States of America depending on where the transaction has been made.

19.4 Any dispute between the parties shall be finally determined by the courts of England and Wales and the parties agree to submit to the jurisdiction of those courts or by the United States Judicial System based on location of transaction.

19.5 The Company disclaims any liability for errors and omissions in this price list.
