LIGHT IS WHERE LIGHT IS

SCANDINAVIAN DESIGN IS POPULAR.

SHAPES add a playful yet simple uniqueness to the traditional nordic design through understated, yet edgy details, providing a lighting range that is adaptable to any environment, lasting beyond the trends of today. German manufacturing ensures precision and quality, adding the final touch of perfection - playfully simple.

MIYABI: ELEGANT AND REFINED

The name MIYABI comes from Japanese and stands for elegance and refinement, which can be beautifully seen in its shape and materials. This new series, designed by the renowned Swiss designer Sven Adolph, is not only attractive in its functionality but above all in its unique design. The mathematical curves, which describe the outer contour, can nevertheless be viewed differently and harmoniously from every perspective. Its mysterious tension between the round and the angular attracts the observer in every sense.

ILLU MIN ANCE

The mouth-blown lampshade made of shiny triplex opal glass becomes an eye-catcher in any room. The colored upper part made of aluminum and the matching textile cables and ceiling canopy gives MIYABI a particularly playful, and at the same time, uniform appearance. Due to the flat design, MIYABI does not take up much space in the room and can be used in the kitchen, over the dining table or in the living room. Of course, MIYABI can also be used in restaurants, cafés, and hotels.

The series consists of pendant luminaires in 3 different sizes and available in the colors gold, rose gold, silver and black chrome.
